

THE BEST CUTTING  
STINGER IN THE INDUSTRY

**8600- HEAVY DUTY HAND CUTTING TORCH  
UP TO 44" OF CUTTING**

**CAPABILITIES**

The New Flame Tech® "8600" Hand Cutting Torch is a heavy duty torch designed for rugged environments. This torch, when using the new proprietary TRI-METAL cutting nozzles, is ideal for heavy cutting in scrap yards and steel mill operations. This heavy duty torch when using the new "TRI or BI-METAL" nozzles can hand cut up to 44" of steel.

- Single lever actuated torch control.
- Uses common "C" size oxygen supply and "B" size fuel.
- Supply to minimize the hose and regulator requirements.
- For alternative fuel only – NOT FOR ACETYLENE.

**TORCH FEATURES**

- Solid Bronze Head
- Heavy Duty Nozzle Mixing Torch
- Three Stainless Tubes in Triangular Format
- Uses Flame Tech® "TRI or BI-METAL" Designed Nozzles
- Light Weight Multi-Tasking Torch

**BENEFITS**

- Safety first – Reduced Flashback
- Maximum Strength, Greater Rigidity
- Low Maintenance, Longer Lasting
- Ease of Operation

**EXAMPLE ORDERING INFORMATION**

**Part #            Description**  
8648-70 = 86 indicates the torch series you are ordering  
8648-70 = 48 indicates the length of the torch you are ordering (48" long)
