

# INFERNO-X

## EXOTHERMIC TORCH ADAPTER

### One Torch. Two Applications.

Oxy-Fuel Cutting Torch

1. Remove the cutting tip and tip nut from the oxy-fuel torch.

Exothermic Cutting Torch

2. Insert the Inferno-X adapter into the oxy-fuel torch.

3. Now the oxy-fuel torch becomes an exothermic torch, using the oxy-fuel torch's cutting oxygen.

### BENEFITS

#### Patented Torch Adapter:

Patented adapter allows for existing oxy-fuel torches to be used as an exothermic torch.

#### Adapter for Most Torches:

Patented adapters are available for Harris®, Victor®, Airco®, Smith® or Oxweld® compatible torches.

#### Cuts through almost anything:

Cut through steel, stainless, iron, brick, concrete, aluminum, and much more.

#### Single O<sub>2</sub> Source—Space Saver:

Using the cutting torch oxygen source eliminates the need for a dedicated oxygen supply, as is required with a conventional exothermic torch.

Flame Tech's Inferno-X is a patented adapter that allows a standard oxy-fuel cutting torch to be used both as a standard cutting torch using cutting tips -or- as an exothermic torch using burning bars.

Inferno-X is a money saver, as it uses existing torches & cutting oxygen tanks. It also saves space, since there is no need to keep additional dedicated torches and oxygen tanks for exothermic cutting applications.

Adapters are available for most major OEM torches and Flame Tech's torches.

DO NOT use battery spark ignition with Inferno-X products. Another torch or tube igniters (sold in boxed quantities) may be used to ignite Inferno-X products.

Inferno-X does not require an additional torch. Flame Tech is able to supply a torch for this product, if you do not already have one. Download our equipment catalog at our web site or contact our customer service department via the toll free numbers listed below for additional details about available torches.

<b>P/N</b>	<b>DESCRIPTION</b>
INF-X-V-KIT	Inferno-X kit to convert Victor® compatible torches
INF-X-A-KIT	Inferno-X kit to convert Airco® compatible torches
INF-X-H-KIT	Inferno-X kit to convert Harris® compatible torches
INF-X-S-KIT	Inferno-X kit to convert Smith® compatible torches
INF-X-O-KIT	Inferno-X kit to convert Oxweld® compatible torches

*Each of the above kits includes:*

*1 adapter; 3 collets (3/8", 1/4" & 3/16"); 6 rubber washers, 1 shield (not shown)*

For additional Inferno-X options or replacement parts, check our standard price book. Ask customer service for assistance with obtaining our price book and your discount schedule.
